SECONDER:	Bob Smith, Chair
AYES:	Smith, Forster
ABSENT:	Olson

CITIZEN COMMENTS

None.

MONTHLY EMS REPORT

Julie and Christine gave report.

<u>Calls for Service Report</u>

They are currently 45 calls ahead of last year when they still had additional territories and were covering for Horicon. They are incredibly busy.

Staffing Update

They have a good strong crew with good participation. They will never turn away a licensed EMT. They just interviewed and hired another candidate.

Training Update

They have med control coming and will be working on trauma with Kekoskee. They review recent cases and always look for improvement. They are also working with Lake Country out of Delafield area as a satellite training center. They are conducting a EMT basic class of 13. They are excited to be the first satellite training center. Julie and Pam are the lead instructors and will have helpers. There is a lot that goes along with this and everyone has really stepped up. The written exam will be 2/22 and they are hoping for 100% pass rate.

Ald. Smith questioned training for the heimlich maneuver. They can schedule a demonstration. They continue to push CPR training to the public.

MONTHLY FIRE DEPARTMENT REPORT

Mike gave report.

Equipment Update

They are doing the hose and ladder testing today. It was put of for 2 weeks due to the rain.

Staffing Update

They are currently at 24. They haven't lost or gained anyone since last meeting.

Fire Call Update

They have had 6 since last month. Mike detailed the calls.

MONTHLY POLICE DEPARTMENT REPORT

Sara read report.

Tornado Siren

The replacement siren on Breckenridge St. at Wisconsin St. has been installed and is working properly. The same day this siren was put up we had a malfunction with the siren on N. Main St. by the old EVS Chevrolet dealership. That siren started going off on its own. A bad circuit board has been identified as the problem. The siren is currently functioning properly with a loaner circuit board from Badgerland Communications. Badgerland is checking to see if they can repair the old circuit board or if we will need to replace it.

<u>Radar Sign</u>

We received the new radar sign for S. John St. this past week. We are working the Jack Hurst (DPW) to locate where the sign will be placed and have Diggers Hotline check the area. We hope to have the sign up and running by the end of next week.

ADJOURNMENT

Motion by Ald. Forster, second by Ald. Smith to adjourn at 7:12 p.m. Motion carried unanimously.

Sara Decker, City Clerk
