Motion by Kahlhamer, second by Smith to approve minutes of the September 25, 2019 meeting. Motion carried 4-0.

5.) Discuss with Possible Action Retention Pond Maintenance.

There is a need to work toward creating an ordinance that requires retention ponds to be maintained. The maintenance needs to be done for safety and aesthetic reasons and also to assure the ponds function as intended when they were installed. Pond designs are approved by the DNR as part of a stormwater management plan; their concern is more based on managing runoff rather than aesthetics or safety. Discussion about amending the weed ordinance to include retention pond maintenance. It would be the responsibility of the property owner to make sure their pond is maintained properly so it does not become so overgrown that it is unable to hold water and/or creates a nuisance or safety concern. The next step should be to create a list of retention ponds in the city.

Motion by Gromowski, second by Gable to table the issue until the next meeting. Motion carried 4-0.

6.) Adjournment.

Motion made by Kahlhamer, second by Gromowski to adjourn. Motion carried 4-0.
Meeting adjourned at 6:00 p.m.
