CITIZEN COMMENTS

None.

MONTHLY UTILITIES REPORT

Water Distribution System Update

- Reports for corrosion control, annual water use, and cross connection summaries have all been submitted to the DNR. CCR has also been submitted.
- Mayville has been awarded funding to remove lead water services. Depending on actual costs, we should be able to remove every service.
- We have been working with Baker Tilly to complete the audit and PSC pages.
- Paperless billing is now available. Customers can call or e-mail to be added to this listing.

Wastewater Treatment Plan Operations Update

- The monthly DMR, quarterly short forms, and mercury minimization plans were submitted to the DNR. R
- We have received some of the quotes necessary for cured in place pipe lining. We are waiting on a few more to complete projects on Riverview Heights and Muzzy St.
- Chemical pumps are being modified to accommodate significantly lower chemical flows than previous chemicals used and should save a significant amount of costly chemical.

MONTHLY ENGINEERING & PLANNING REPORT

MONTHLY DPW REPORT

Sara read Jack's report.

Pot Holes

pot holes-filling pot holes throughout the city. There are a lot

Tree Trimming

tree trimming-trimming throughout the whole town

Snow Events

snow events-had a couple this month, but slowing down with the nice weather

Brush Pickup

brush pickup-last Monday of every month

Bucket Truck

bucket truck-had it repaired for \$8,000. Wouldn't pass inspection

Loader

Loader --\$18,000 worth of work to be done also to pass inspection

Dams

dams -gates are open. lower dam 12 inches, upper dam 9 inches. Aerators have been removed.

MONTHLY PARK REPORT

Sara read John's report.

Buildings Report

Rentals are starting to pick up at all buildings. Pavilion showings for future events are starting to pick up also. We have received our first quote for siding at the Pavilion and should be receiving our second bid at any time. I am starting to clean seasonal buildings next week and hoping to turn on water the first week in April.

Grounds Report

Clean up of the parks has started for the opening this spring. The Ziegler Trail is being finished this week. The trail has gravel now and the foot traffic on the trail has increased. We are having a problem with people not picking up the dog waste after they leave our parks. I am going to be placing signs up warning people to clean up after their dogs or dogs won't be allowed in the parks. I have received numerous complaints from people who are using Ziegler Trail. I took pictures of all the waste on the trails. Mike Kurutz had said that in the past the reason nothing was done to possibly keep the dogs out of the parks was because they had nowhere to take their dogs. We have the dog park now. I am going to place signs, garbage cans and dog bags throughout the parks and if the dog waste is still not being cleaned up then we will look at becoming stricter with dogs in the parks.

Parks Projects

The Frisbee Golf Course is going ahead as planned. The construction has been pushed back slightly due to some funding coming to the Rotary from the national Rotary. The construction date is hopefully going to be in May. I am waiting for the final bid from Northwest Cable to trench in the electric for the lights to be installed on the upper dam and staircase that stretches between the Dam and German St. The Mayville Sting applied

for a grant from the Bachhuber Foundation to redo our dugouts at Theiler Park and was given the Grant.

Date and time of the next Park and Rec board meeting is Tues April 20th 6pm at the Tag Center

ADJOURNMENT

Motion

Motion to adjourn at 6:53 p.m.
